Additional Information

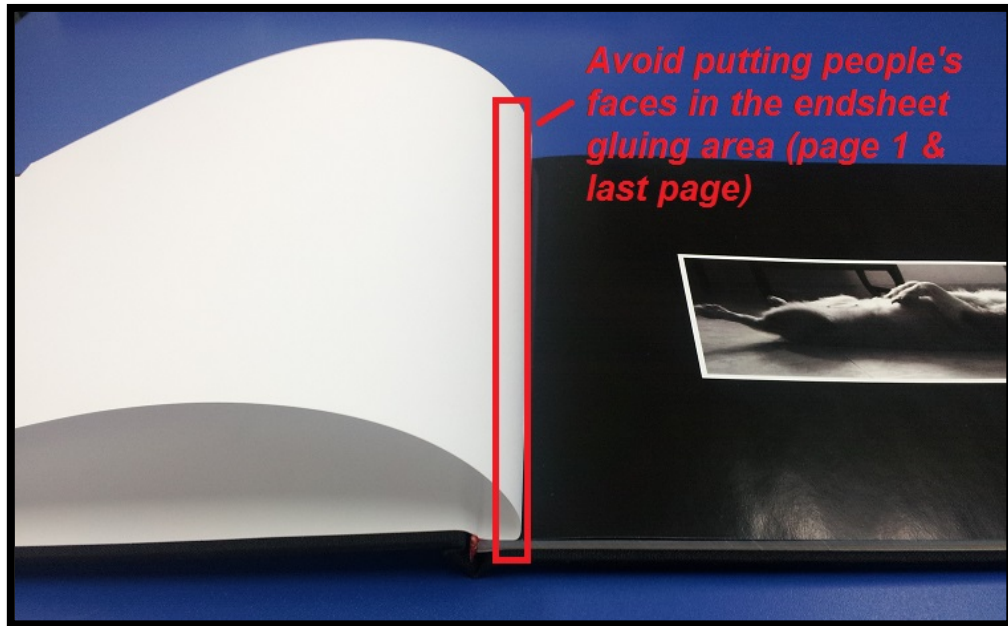

It is important to make sure that you are careful with the types of images you choose for a two-page photo spread and how you position the image across the pages.

The area in between the two pages, otherwise known as the book gutter, will get lost a bit into the binding of the book. Make sure that you do not have important content spanning the gutter.

Additional Information

Please move images at least 1cm away from the white endsheet gluing area (page 1 & last page)

Additional Information

Please move images away from the trimming area
